Dear Dr. Lucas:

I study the correlation that exists between the elevation of the mental manifestation and the phenomenon of the dermal ridge arrangements. It is for this reason that I write. I am requesting a copy of the fingerprint record of Michael Joseph Jackson (August 29, 1958 – June 25, 2009). Place of birth: Gary, Indiana. It was determined during a previous request (PUBLIC RECORDS REQUEST 2009-04415) that said document is not subject to public disclosure due to an on-going investigation. That investigation however was in 2009. I am therefore resubmitting my request in that the investigation of the late Michael Jackson may have been completed.

Thank you for reading this letter and I look forward to hear you or your authorized representative.

Sincerely,

Andres J. Washington
